SUMMARY

Frontend Developer with hands-on experience building responsive, user-friendly web applications. Skilled in React.js, Next.js, Tailwind CSS, and JavaScript with a strong focus on clean code, performance, and modern UI/UX. Currently open to frontend developer roles where I can contribute, learn, and grow.

EDUCATION

Senior Secondary (XII), <i>Sunbeam Inter College</i>	04/2022 – 04/2023
Bachelor of Computer Applications (BCA), <i>FIT Engineering College, Meerut</i> 📄	08/2023 – 07/2026

- Next.js
- Tailwind CSS
- Responsive Design

Backend & DB

- MySQL
- REST API Integration

Tools

- Git
- GitHub
- Figma
- GSAP
- Vercel
- Vite

PROJECTS

Movie search 📄, *Next.js · Tailwind CSS · TMDB API | explorecinema.vercel.app*

- Movie discovery platform with search, dynamic routing, and detailed film pages via TMDB API.
- Used Next.js API routes and SSR for fast load performance.
- Deployed on Vercel with fully responsive layout.

Apple iPhone 15 Pro Clone 📄, *React · Tailwind CSS · GSAP · Three.js | applei15pro.vercel.app*

- Pixel-perfect Apple landing page with scroll-driven animations via GSAP.
- Interactive 3D carousel using Three.js for an immersive product UI.
- Smooth performance and responsive across all screen sizes.

Weather App 📄, *React · Tailwind CSS · OpenWeather API · Axios | skycastbydpnshuu.vercel.app*

- Real-time city-wise weather data via OpenWeather API with Axios.
- Glassmorphism UI design with dynamic temperature and condition updates.
- Fully responsive layout deployed on Vercel.
